

HEALTH & SAFETY

We offer a vast range of health and safety products for industry and commerce both from stock and made to order in a variety of materials. Here are a few examples of what we can offer.

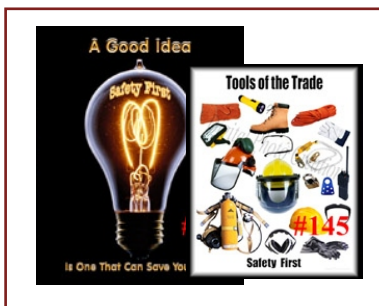

Health and Safety Signs

Safety signs from stock meeting BS and EC standards. Available in a range of sizes and materials including self adhesive PVC, Rigid plastic and aluminium.

Photoluminescent Signs

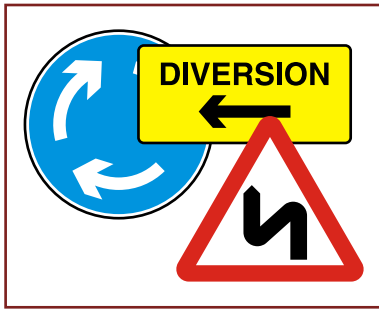

Printed using a class A photoluminescent pigment material. These 'glow in the dark' signs comply to BS 5499 part 4 and are suitable for both on and offshore applications.

Safety Posters

A range of laminated 'wipe clean' safety posters including First aid procedures for specific emergency situations, Statutory notices and Factory Acts as well as general safety notices designed to get your message across.

Traffic and Transport

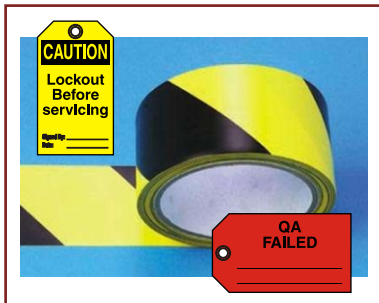

Class 1 and 2 grade reflective traffic signs to comply with BS 873. Manufactured in 3mm thick aluminium either supplied flat or fitted with channel or complete with posts and fixings.

Also a range of complimentary products including cones, barriers, ramps and line marking.

Customised Signs

In addition to Health and Safety signs we offer a custom sign service supplying made to measure signs for both internal and external applications from directory systems to corporate monoliths.

Tapes and Tags

Our range of tapes include self adhesive PVC floor marking tape, non adhesive polyethylene barrier tapes and underground detector tapes. We also offer stock and bespoke tags and labels including lock off, isolation and quality control.
